

# CURRICULUM VITAE

<b>Name</b>	<b>Ahmed Askora</b>
<b>Affiliation</b>	Microbiology Department Faculty of Science, Zagazig University, Zagazig 44519 Egypt
<b>Telephone</b>	+20113348391
<b>Fax</b>	+20 552308213
<b>E-mail</b>	ahmedaskora@zu.edu.eg ahmedaskora@gmail.com ahmedaskora@yahoo.com
<b>Date of birth</b>	30 September 1979
<b>Nationality</b>	Egyptian

## Education/Qualifications and Work Experience

- 2002 – 2005** Master student in Microbiology,  
Monitor in Microbiology  
Faculty of Science, Zagazig University, Egypt.
- 2005-2006** Assistant lecturer at Faculty of Science, Zagazig University,  
Egypt.
- 2007 -2011** **Doctor of Philosophy (PhD) in Molecular and Genetics Biotechnology, Graduate School of Advanced Sciences of Matter, Hiroshima University, Japan.**  
Scholarship from Egyptian Ministry of Higher Education  
Lecturer in Biotechnology and Molecular Biology at  
Zagazig University.
- 2011 - 2015** Associate Professor in Molecular Biotechnology at  
Zagazig University
- 2016 – 2021** Deputy Director, Zagazig University project management unit (UPMU)- till present
- 2021 –present** Professor in **Virology and Molecular Biotechnology** at  
Zagazig University
- 2021 - Present** Executive Manager of project management unit,  
Innovation, Entrepreneurship and international ranking center, Zagazig University - till present

**2023 - Present** Supervisor of the regional Research center, Sharqia Branch, Academy of Scientific Research - till present

### **Post-Doctoral experience**

- **Visiting scientist** at the Institute for Integrative Biology of the Cell (I2BC, UMR9198), Department of Microbiology, Group “Energetic Metabolism of *Streptomyces*”, **University Paris Sud, 91405Orsay, France**.

Grants from the Egyptian Ministry of Higher Education, from the “Institut de Recherche pour le Development” (IRD) and from the “Science and Technology Development Fund” (STDF).

#### **The Project in a few words**

**Title:** Elucidation of the link between storage lipids and antibiotic production in *Streptomyces*.

The aim of this project was to discover most needed novel antibiotics using novel strategies to enhance the expression of the numerous cryptic biosynthetic pathways in the *Streptomyces* genome.

- **Grant of Japan society for the Promotion of Science (JSPS).** Visiting scientist at Graduate School of Advanced Sciences of Matter, Department of Molecular Biotechnology, Group “biomolecular technology”, Hiroshima University, 1-3-1 Kagamiyama, Higashi-Hiroshima 739-8530, Japan.

#### **The Project in a few words**

**Title:** Dynamic interaction between filamentous phage φRSM and *Ralstonia solanacearum*, resulting in loss of virulence and possible application as vaccine to bacterial wilt.

The project was aimed at (1) Establishing molecular basis of loss of virulence in *R. solanacearum* caused by infection with filamentous phage φRSM. (2) Establishing molecular mechanism of φRSM1 integration into the host genome mediated by phage-encoded novel serine recombinase and (3) Application of phage-infected cells as vaccine against plant diseases.

### **Teaching Experience**

Teaching courses for under and post graduate students in Faculty of Science of Zagazig University (Egypt): Microbiology, Molecular Biology, Microbial Biotechnology, Virology and Immunology, Actinomycetes, Soil Microbiology, Medical Microbiology, Biochemistry, Bioinformatics and Proteomics.

- **Supervisor of 40 Master Students and 18 Ph.D. students.**

### **Peer Reviewer for Academic Journals**

Scientific Reports, Frontiers in Microbiology, Current Microbiology, Gene Journal, Archives of virology, Journal de Mycologie Médical, Journal of Bacteriology and Mycology, Current of microbiology, Archives of

## Microbiology

### **Editorial Board Member for the following journals**

- 1) <http://austinpublishinggroup.com/biotechnology-bioengineering/editorialboard.php>
- 2) <http://austinpublishinggroup.com/computational-biology-bioinformatics/editorialBoard.php>
- 3) <http://www.austinpublishinggroup.com/virology/editorialBoard.php>
- 4) <http://loop.frontiersin.org/people/148342/overview>
- 5) <http://austinpublishinggroup.org/genetics-genomic-research/editorialBoard.php>

### **Scientific and Educational Committees**

- 1) The Society of Biotechnology, Japan.
- 2) The Canadian Society of Microbiologists
- 3) Egyptian Phytopathological Society.
- 4) The Egyptian Society of Applied Microbiology.
- 5) Egyptian Society of Virology.
- 6) Society for Industrial Microbiology and Biotechnology.

### **h index scopus: (14)**

<https://www.scopus.com/authid/detail.uri?authorId=25723044900>

### **H-index google scholar: (17)**

<https://scholar.google.co.jp/citations?user=5axrY5QAAAAJ&hl=en>

### **Honors/Awards**

1. Award of the top student in B.Sc. In Microbiology 2000, Faculty of Science, Zagazig University, Zagazig Province, Egypt.
2. Doctoral Scholarship from Egyptian Ministry of Higher Education to complete Ph. D. abroad for four years (2007-2011).
3. Travel Grant Award. FEMS 2009, 3rd Congress of European Microbiologists. June 28– July 2, 2009. Gothenburg, Sweden.
4. Travel Grant Award. The First International Congress on Virus of Microbes. June 21-25, 2010. The International Research Centre in Paris, the Institute Pasteur. France.
5. Post-doctoral grant from the Egyptian Ministry of Higher Education to France with Dr. Marie-Joelle VIROLLE, the Head of the group of "Metabolisme

Energetique des Streptomyces" Institute of Genetic and Microbiology, University Paris Sud ,91405 Orsay France.

6. JSPS Postdoctoral Fellow, Japan society for the promotion of science (2014)
7. Zagazig University award for International publication 2012-2020
8. Post-doctoral grant from Dr. Marie-Joelle VIROLLE, the Head of the group of "Metabolisme Energetique des Streptomyces" Institute of Genetic and Microbiology, University Paris Sud ,91405 Orsay France.2015-2017

### **International Conferences and Meetings:-**

1. Askora, A., Kawasaki, T., Usami, S., Fujie, M., Yamada, T. (2008) Phage engineering II: design for new host range of *Ralstonia solanacearum* phage φRSM. Annual Meeting of the Society of Biotechnology 2008, August 27–29, 2008. **Sendai, Japan**.
2. Askora, A., Kawasaki, T., Usami, S., Fujie, M., Yamada, T. (2009) Host recognition and integration of filamentous phage φRSM in the phytopathogen, *Ralstonia solanacearum*. **FEMS 2009**, 3rd Congress of European Microbiologists. June 28 – July 2, 2009. **Gothenburg, Sweden**.
3. Askora, A., Kawasaki, T., Fujie, M., and Yamada, T. (2010) Dynamic integration and excision of filamentous phage φRSM in the phytopathogen *Ralstonia solanacearum*. The First International Congress on Virus of Microbes. June 21-25, 2010. The International Research Centre in Paris, **the Institute Pasteur. France**.
4. Askora A. (2013) Current advances in bacteriophage biocontrol: Intl Symp (“Challenge of Red Queen” Sept.18, 2013, **HIROshima, Japan**).
5. Askora, A., Kawasaki, Fujie, M., Yamada, T. (2014) Molecular characterization of a new filamentous phage infecting *Ralstonia solanacearum* with a wide host range. Annual Meeting of the Society of Biotechnology 2014, September 9–11, 2014. **Hokkaido, Japan**.
6. Askora A. (2014) Diversity of φRSM-type phages infecting *Ralstonia solanacearum*: regulation and evolution. 2<sup>nd</sup> Intl Symp. New Stages of Phage Biocontrol of Plant Diseases Sept.18, 2014, **HIROshima, Japan**.
7. Ahmad A, Askora, A., Kawasaki,T., Fujie, M., and Yamada,T. (2014) A filamentous phage XacF1 causes loss of virulence to *Xanthomonas axonopodis pv citri*, the causative agent of citrus canker disease. The American Phytopathological Society Joint Meeting 2014, August 9-13 Minneapolis, **Minnesota, USA**.
8. The tenth international environmental conference, Natural resources and sustainable development 25-26 June 2014 Faculty of science, **Zagazig University, Egypt**.

9. Gharieb,K., El Didamony, G. and Askora A. (2016) Isolation and characterization of new bacteriophages infecting *Ralstonia solanacearum* in Egypt. Annual Conference on Bioscience September 12-13 Berlin, Germany.
10. Abd El Kader.M.A, Zaki.M.S.A, Abd- El-All.A.M, Askora.A., Mai.F.S (2018) Control of contaminated water with *E.coli* O157 and O111 by using bacteriophage. The 5<sup>th</sup> International Food Safety and Human Health Conference 13 October 2018, Damanhour University, Egypt.
11. Virolle,M.J., Millan-Oropeza,A., Esnault,C., Smirnov,A., Dulermo,T., and Askora, A. (2016) In Streptomyces, the switch between primary and secondary metabolism is underpinned by a transition from glycolytic to oxidative metabolism. New Biotechnology, 33, pp.S59--S60
12. The 14<sup>th</sup> international environmental conference, Natural resources and sustainable development 17 July 2019 Faculty of science, Zagazig University, Egypt.
13. The 15<sup>th</sup> international environmental conference, Natural resources and sustainable development 25 November 2020 Faculty of science, Zagazig University, Egypt.
14. The 16<sup>th</sup> international environmental conference, Natural resources and sustainable development December 2023 Faculty of science, Zagazig University, Egypt.

### Projects and patent

- **Principal Investigator for Entrepreneurship club project at Zagazig University. Funded by Academy of Scientific Research and Technology(2024)**
- **Principal Investigator for project entitled:** Raising the Efficiency of the Accurate Measurements Laboratory at the Faculty of Science, Zagazig University, by Supplementation with the necessary Equipment. **Funded by Academy of Scientific Research and Technology (2023)**
- **Principal Investigator for Entrepreneurship club project at Zagazig University. Funded by Academy of Scientific Research and Technology(2022)**
- **Co-Principal Investigator** for three projects;
- 1- **The first Project ID 2014081** entitled Production of new antibiotics from actinomycetes by using genetic engineering. Funded by Dammam University, Saudi Arabia.
- 2- **The second Project ID 5447** entitled Elucidation of the link between storage

lipids and antibiotics production in Streptomyces. **Funded by Science & Technology Development Fund (STDF).**

**The third Project:** Development and upgrading the central unit of the Electron Microscope in the Faculty of Science, Zagazig University. **Funded by Academy of Scientific Research and Technology**
